1. Animal-to-space register

Blank planning prompts. Not a health, enclosure or diet clearance.

Date / reviewer

Animal ID / species

Arrival planned or recorded / actual date

Source history reference / unknowns

Assigned physical space

Open professional question

2. Arrival-area walk

Blank planning prompts. Not a health, enclosure or diet clearance.

Space label / purpose

Boundary and adjacent groups

Possible animal-contact route

People / boot / equipment route

Original veterinarian plan reference

Unverified item / responsible role

3. Water access walk

Blank planning prompts. Not a health, enclosure or diet clearance.

Water-point label / area

Animals meant to use it

Access actually observed? Who / when?

Supply / cleanliness / fault notes

Backup arrangement / repair role

Recheck observation, not clearance

4. Feed and mineral access

Blank planning prompts. Not a health, enclosure or diet clearance.

Product label / source reference

Species intended by the label

Actual area and animals with access

Storage and spill route

Question for qualified nutrition adviser

Original advice reference / unresolved issue

5. Equipment movement

Blank planning prompts. Not a health, enclosure or diet clearance.

Equipment label / home area

Dedicated / shared / not checked

Route between groups

Original cleaning instruction reference

Responsible role / actual work note

Unresolved question for veterinarian

6. Follow-up and adviser questions

Blank planning prompts. Not a health, enclosure or diet clearance.

Concrete question or repair

Animal / space / resource reference

Responsible role / target date

Original professional instruction location

Work reported / actual observation

Still unknown / next follow-up

7. Read before using this packet

Blank planning prompts. Not a health, enclosure or diet clearance.

Planning record only, not a veterinary or enclosure assessment

---

No quarantine countdown or automatic release

No feed ration, supplement or medication instructions

For animal illness or distress contact a veterinarian, not this packet
